RESEARCH IN PROGRESS

8. Estimating dynamic treatment effects of events: An imputation approach to Interrupted Time Series design
7. Inference at the data's edge: Gaussian processes for modeling and inference under model-dependency, poor overlap, and extrapolation (with [Chad Hazlett](#) and [Doeun Kim](#))
6. Non-existent outcomes in research on inequality: A causal approach (with [Ian Lundberg](#))
5. Effects of the COVID-19 Pandemic and Governmental Restrictions on Firearms Purchasing Behavior (with Jack Kappelman, Tanvi Shinkre, Ryan Baxter-King, Haotian Chen, and Abigail Kappelman)
4. Unraveling climate refugee-specific hostility: Exploring deservingness bias in developed countries (with [Jieun Park](#))
3. Drivers of attitudes toward Asian Americans: Disentangling stereotyping from racial identity (with [Jieun Park](#) and [Jesscia Hyeonjeong Lee](#))
2. Modeling and assessing controlled direct effects with the regression-with-residuals method (with [Ian Lundberg](#))
1. Characterizing voter types with Gaussian Process clustering: An application to high-dimensional individual-level ballot data

GRANTS, AWARDS AND FELLOWSHIPS

2024	ACIC Travel Scholarship (\$500), Society for Causal Inference
2023-2024	Institute to Study Hate Research Grant , UCLA \$15,000 Grant awarded by the UCLA Initiative to Study Hate for research project
